### It's a comfortable plan

It's a comfortable plan, helped me with polycystic ovary symptoms, makes me drink more water which I didn't before and I have a wide variety to choose if I don't like what's suggested. And I can find answers for everything. Little tips send by email are very helpful like adding green to my meal etc .... The most important I don't feel hungry at all. Thank you

### Awesome!!!

This is an amazing app. It send you alerts when you haven't tracked something or reminds you to drink water (which can be a challenge for me). You have tailored food plans and shopping lists to help aid you in your weight loss. I am never hungry with this meal plan. Great plan and I highly recommend it if you are wanting to get your nutrition under control.
